

Engagement, dissemination and communications (WP2/7)

An engaged FAIR-IMPACT community of 2700 registered users from 87 countries, of which 29 European countries (EU27 + UK and Switzerland). The first three support programmes (February 2024 - September 2024) engaged 121 teams of 285 participants. During the second reporting period FAIR-IMPACT engaged 850+ Research Performing Organisations, 430+ Repositories and Data service providers, and 37 National Initiatives.

FAIR-IMPACT Stakeholders

Starting by the EOSC partnership including the Board of Directors of the EOSC Association and a selection of Task Forces under the EOSC Association that are most relevant for the FAIR-IMPACT focus areas. FAIR is also in the remit of European projects, especially those in the HORIZON-INFRA-EOSC funding scheme as well as the most recent granted projects in support of European Research Infrastructures as well as the Open Science projects under the umbrella of the OSCARS project, and a few newcomers from the food sector. The EOSC Technical Core projects and its discipline-independent providers complete the list of EOSC-related stakeholders

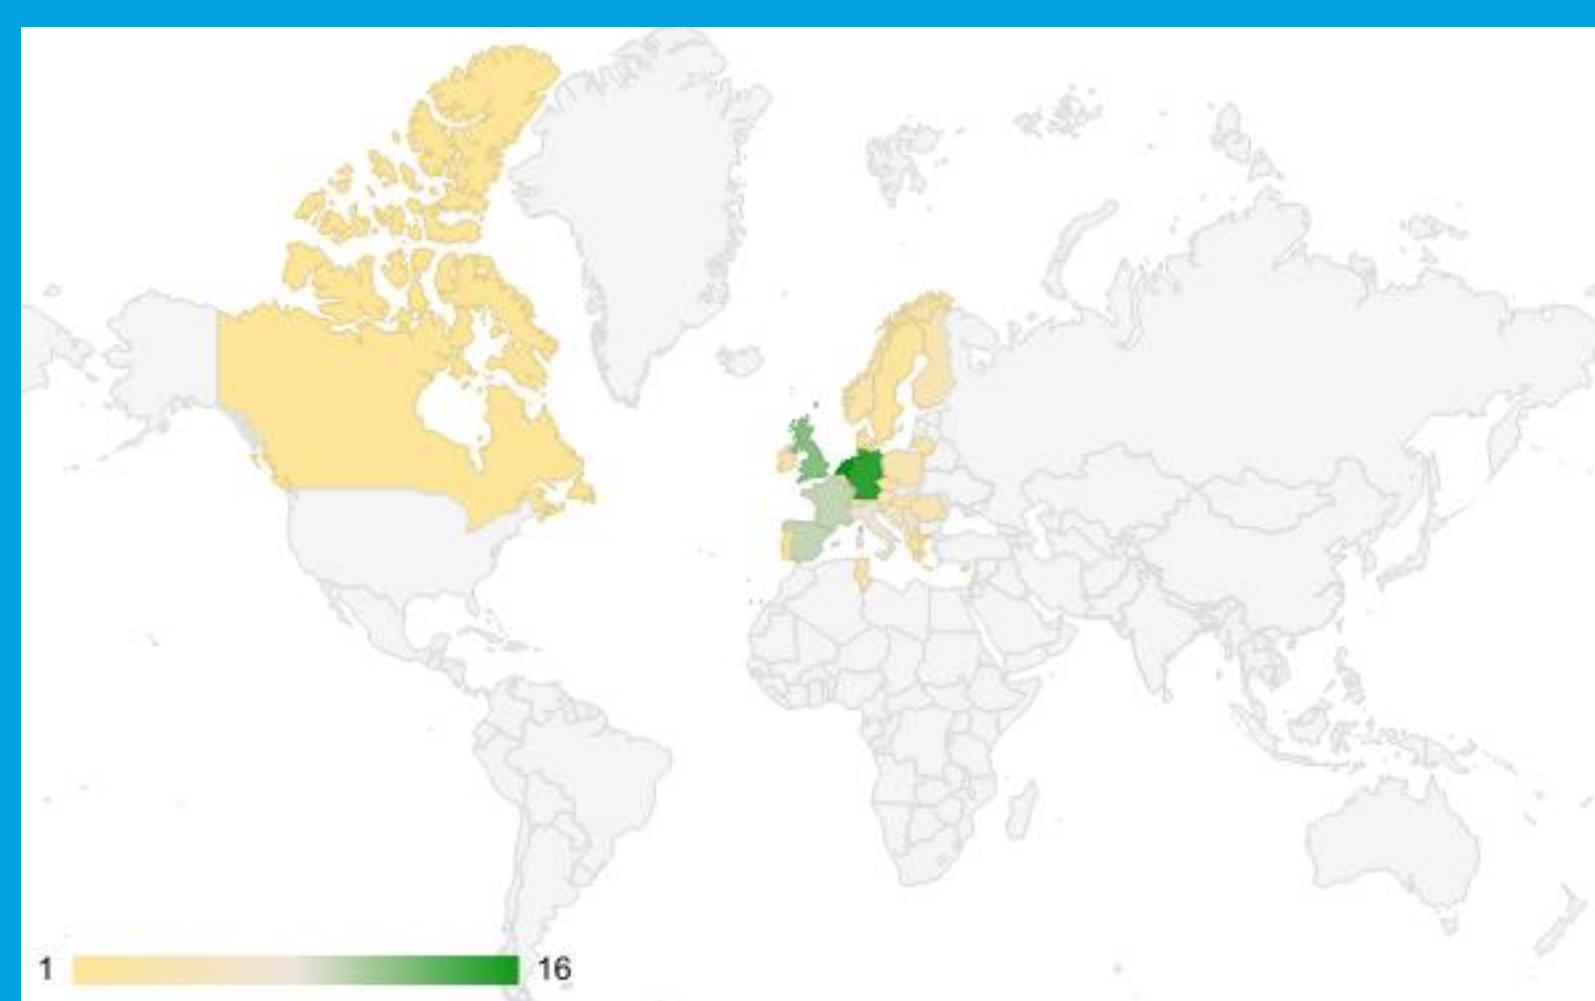

17 FAIR Implementation Workshops, 900+ participants

11 FAIR Implementation stories published so far
